Designated a Doody's Core Title The second edition of the award winning "Distance Education in Nursing" continues to offer basic introductory information on distance teaching and learning and now brings the application of newly developed computer technology to this environment. Each chapter provides real-life distance education experiences of both teachers and students, and describes ways in which distance education has enhanced the quality of their nursing education. As a nurse educator, whether novice or expert, you will benefit from this book, written by such distinguished contributors as Diane Billings, Suzanne Hetzel Campbell, and Marilyn H. Oermann.
