装帧:Pap

isbn:9781582553481

Part of the popular Lippincott's Review Series, this book offers an inexpensive, outline-format, paperback review for nursing students. The books in this series can be used for course/subject review, or NCLEX preparation. Core nursing content is presented in a comprehensive outline format review, plus chapter study questions and a comprehensive examination, both with answer key with rationales for correct and incorrect responses. This edition includes new NCLEX-style innovative item questions. A new, user-friendly back-of-book CD-ROM contains multiple choice and innovative item questions and a drop-down calculator.
