isbn:9781401859039

This one-stop resource offers a comprehensive program management approach to occupational safety and health issues for instructors, students, safety officers, fire and EMS department managers, and others in the fire and emergency medical services fields. Updated to the latest editions of the NFPA 1500 series standards and adhering

to the course objectives within the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) course outcomes for Occupational Health and Safety, this book explains the significance and rationale for increasing emphasis on health and safety and provides the education necessary for facing the challenges that lay ahead. Enhancements to this edition include the latest facts on risk management and program development, all-new information on funding for safety and health programs, emerging trends, and updated coverage of terrorism preparedness.
