isbn:9780721602998

This definitive 2-volume set provides encyclopedic, authoritative coverage of all aspects of vascular surgery. The exhaustively revised and completely updated 6th edition incorporates greater coverage of endovascular applications throughout, along with fresh approaches to key areas such as vascular access, imaging, and non-operative management. In addition, it is now available as a multimedia, offering readers enhanced reference power plus weekly updates for the life of the edition.
