This title is directed primarily towards health care professionals outside of the United States. This title is the product of an initiative of the World Small Animal Veterinary Association (WSAVA). The aim is to describe a world standard of guidelines for diagnosis of liver diseases in dogs and cats, using both histological and clinical criteria.

- * standard reference for pathologists and specialists, as well as general vets in practice
- * only available standard for making well defined diagnosis based on histological and clinical criteria for liver diseases in small animals
- * describes world standardization of guidelines for diagnosis of liver diseases in dogs and cats, using both histological and clinical criteria.
- * supported by WSAVA giving it a worldwide appeal

评论

非常有价值去阅读这本书籍，如果你家医院有很不错的b超的话，五星推荐，一般的b超可能无法胜任这些诊断任务。图不多，但是非常精良，国内的兽医书籍任何章节都无法比之。
