Mosby's RNtertainment: An NCLEX Review Board Game is a revolutionary game designed as a review tool for nursing students preparing for the NCLEX examination or for practicing nurses who want to reinforce and sharpen their nursing knowledge. It presents clinical questions and scenarios in all the major nursing categories while providing a fun, humorous and innovative way to study. Perfect for study groups and gift giving, this game includes a colorful game board, a unique die, game pieces, and color-coded category cards that are divided into the four main areas of Medication, Disease Process/Anatomy & Physiology, Diagnostic Testing and Patient Care. Two wild card categories entitled Healthy Rewards and Code Black and Blue incorporate humorous patient scenarios into the game to test the will and ability of a nurse to "handle it all." The object of the game is to travel from start to finish by correctly answering nursing related questions while navigating through the situations randomly f \* Full-color game board along with color-coded category cards and game pieces. \*

Unique retro design using lighthearted cartoons with attitude. \* Category cards cover all the main clinical topics of the NCLEX examination as well as specialty nursing questions in the areas of medical-surgical, pediatrics, maternity and psychiatric nursing. \* Thorough coverage of newer topics emphasized on the NCLEX examination such as pharmacology, nutrition, and complementary and alternative therapies. \* Approximately 75 cards per main category area for a total of 300 cards/questions and an additional 20 "Healthy Rewards" and 26 "Code Black and Blue cards."
