isbn:9781401898847

Written specifically for short medical terminology courses in a variety of educational settings or for self-guided study, Medical Terminology Made Easy, Fourth Edition, is a self-paced learning approach designed to ease you into the language of medicine that

separates the layperson from the professional. The programmed-learning format requires active participation through reading, writing, answering questions, labeling, repetition, and providing immediate feedback. This format will help you to correctly decipher new terms by identifying and then practicing different word parts.
