著者:Johnson, Ann L./ Houlton, John E. F./ Vannini, Rico

出版者:Thieme Medical Pub

出版时间:2005-5

装帧:HRD

isbn:9781588904171

This book is a complete reference for managing fractures in dogs and cats, with state-of-the-art AO techniques for treatment of fractures of the mandible/maxilla, scapula, humerus, ulna/radius, pelvis, spine, femur, patella, tibia/fibula, and much more. For each procedure, the book covers preoperative planning, surgical anatomy and approaches, operative steps, and prognosis and results. You will also find clinical insights on patient management, implants and materials, and complications. 450 full-color illustrations demonstrate every technique and concept, and annotations throughout the text help you retain key information. An accompanying DVD-ROM

includes AO Teaching Videos for easy visual comprehension. Providing the step-by-step guidance needed for successful outcomes, this book is a must for all orthopedic surgeons, traumatologists, and other veterinary specialists who treat these injuries.
