装帧:Pap

isbn:9780789022981

"Biomedical Organisations" places the results of a survey of hundreds of global

medical organisations and their position statements in one accessible volume. This comprehensive reference analyses and discusses the history and characteristics of the creation and development of the organisational position statement. The book also indexes medical organisations and their web site addresses and presents an alphabetical listing of their position statements. Indexed according to subject as well as by organisation, this one-of-a-kind source allows readers to determine what organisations have issued position documents on a specific subject such as alcoholism or HIV, as well as providing an appendix listing biomedical organisations without position documents.
