isbn:9780781738996

A renowned group of retina surgeons presents promising new developments in

age-related macular degeneration, with emphasis on the most significant advances in the past five years. Content addresses all aspects of management, including anatomy, physiology, and pathophysiology; imaging of the macula in age-related macular degeneration; prevention measures and treatment; treatment; and future directions. Abundantly illustrated and superbly organized, this book serves as an excellent reference and textbook.
