isbn:9781573402217

This fourth edition of Current Cardiovascular Drugs is designed to provide an updated practical compendium of current knowledge regarding cardiovascular drug therapy in

a concise, easily readable format. The book is organized into chapters by drug class, and details the pharmacologic characteristics of specific treatment entities. The clinical efficacy and limitations of the various drug therapies are discussed using supportive reference material from the most authoritative sources and published clinical trials. The book is for practicing physicians, physician's assistants, pharmacists, nurse practitioners, nurses, and residents.
