This review book contains 1,200 multiple-choice questions modeled on the types of questions seen in Part 1 of the board certification exam in adult psychiatry. The questions are accompanied by answers and explanations for why one answer is correct and the others are incorrect. Questions are divided into 17 specialty categories—basic psychopathology, schizophrenia, mood disorders, anxiety disorders, geriatric psychiatry, child psychiatry, consultation-liaison psychiatry, forensic psychiatry, substance misuse, eating disorders and sexual disorders, mental retardation, sleep disorders, personality disorders, psychopharmacology, psychotherapies, psychology, and neurology. An additional chapter covers miscellaneous topics. All information has been thoroughly reviewed by experienced psychiatrists.
