Announcing the new version of the acclaimed "Crash Course" series, reworked for students sitting the USMLE exams! Clear text covers the essential concepts of each

discipline or specialty; learning features expedite mastery of the material; and review questions let readers assess their knowledge. With basic science books written by current medical students under faculty supervision, and clinical titles that pair senior specialists with doctors who have only recently begun training in the relevant field, "Crash Course" titles are designed to ideally meet the needs of today's medical students and are the smart way to study! Elsevier titles with STUDENT CONSULT will help you master difficult concepts and study more efficiently in print and online! You can perform rapid searches, integrate bonus content from other disciplines, download text to your handheld device, and a lot more. Each STUDENT CONSULT title comes with full text online, a unique image library, case studies, USMLE style questions, and online note-taking to enhance your learning experience.
