出版时间:2005-3

装帧:Pap

isbn:9780323034289

This convenient quick-reference guide offers complete coverage of topics related to the acute care management of patients in the critical care setting. The spiral-bound format provides quick, easy access to information on disorders, treatment, assessment, monitoring, and drug therapy. It also features helpful formulas, laboratory values, and scoring tools. * The spiral binding and handy pocket size make it an ideal clinical companion * Water- and stain-resistant pages stand up to daily wear and tear * Features colored tabs that take you directly to key content areas * Includes a comprehensive collection of commonly used, but rarely memorized, clinical information, such as charts, graphs, formulas, conversions, and lab values * Coverage includes: pain/vital signs, cardiovascular, ECG, hemodynamic monitoring, pulmonary, neuro, gi/gu/endo, pediatrics, obstetrics, and lab values
