The premier reference on pediatric ophthalmology is now in its thoroughly updated Fifth Edition. More than 40 eminent authorities cover every aspect of pediatric eye care—from genetics through reading disorders—focusing on clinical diagnosis and management. More than 700 illustrations complement the text. New Fifth Edition chapters cover Neonatal Ophthalmology, Surgical Management of Strabismus, Medicolegal Issues, and Evolution of Strabismus Surgery. All other chapters have been updated to include recent advances in genetics, newly recognized syndromes, and state-of-the-art management protocols.
