Bringing together experts in the field of manual therapy, this unique collection includes

commissioned Masterclass articles on vertebral column injuries and rehabilitation that were published in the journal Manual Therapy between the years 1995 - 2002. Ideal for study and clinical reference, this compact and portable volume deals with articles covering all areas of the vertebral column. Many of the articles also include updating "postscripts" in which the original authors summarize the developments in their related research and clinical practice that have taken place since their papers were first published.
