This Sourcebook aims to support efforts by countries to strengthen the role of the education sector in the prevention of HIV/AIDS. It was developed in response to numerous requests for a simple forum to help countries share their practical experiences of designing and implementing programs that are targeted at school-age children. The Sourcebook seeks to fulfill this role by providing concise summaries of programs, using a standard format that highlights the main elements of the programs and makes it easier to compare the programs with each other. A Sourcebook of HIV/AIDS Prevention Programs documents 13 education based HIV/AIDS prevention programs targeting children and youth from 7 sub-Saharan African countries. It is sponsored by UNAIDS, UNICEF, UNESCO, UNFPA, DFID, USAID, Ireland Aid and the World Bank. The Sourcebook represents the work of many contributors

(acknowledged in the book), and was developed by the Partnership for Child Development with the World Bank, with principal support from Ireland Aid and the Norwegian Education Trust Fund.
