- Over 60 case studies focusing on intestinal protozoa, blood and tissue protozoa,

cestodes, trematodes, and intestinal nematodes, as well as blood and tissue nematodes- Concise cases begin with patient history and symptoms, relevant clinical findings and laboratory data, and in most cases relevant four-color images; proceed with discussion questions; and conclude with answers to the questions- Challenging cases throughout; final section presents students with unusual patient histories and symptoms- Reinforces material which is covered in a laboratory or clinical setting
