isbn:9780721684475

This handy resource helps to improve communication between health care providers and Spanish speaking pediatric patients and their caregivers. Organised by chief complaint, this reference provides commonly asked questions that require simple yes and no answers. Each question is presented in Spanish with its phonetic pronunciation and English translation, enabling users to successfully procure the answers necessary to care for their youngest patients. This excellent book equips readers to be understood in a full range of health care settings including emergency departments, outpatient clinics, and hospital wards.
