

Field Guide to the Eyes

[Field Guide to the Eyes_ 下载链接1_](#)

著者:Trobe, Jonathan D./ Hackel, Richard E.

出版者:Lippincott Williams & Wilkins

出版时间:2002-3

装帧:Pap

isbn:9780781731683

This book is structured primarily by the presenting problem to facilitate access by the non-specialist. It includes an introductory chapter on the screening examination with the presentation of each problem being structured in a "what to do" and "how-to" format. Topics covered include eyelid, lacrimal, and orbital abnormalities, red eye, iris, lens, retina, and more.
