装帧:Paperback

isbn:9780750651714

"The Veterinary Nursing Medical Textbook" is the first of its kind, providing text aimed specifically at Medical nursing. It will assume a degree of underpinning knowledge of the RCVS Veterinary Nursing syllabus, building upon it to provide a more in depth

approach to medical nursing and its practical application. It will be of relevance to all levels of study and an invaluable resource for the practice. It will be particularly useful to those Veterinary Nurses who are embarking on the Medical element of the Diploma in Advanced Veterinary Nursing.
