著者:Waide, Linda/ Roland, Berta

出版者:Independent Pub Group

出版时间:2001-1

装帧:Pap

isbn:9781556523915

Pharmacology is the most difficult aspect of the NCLEX licensure examination for both practical and registered nurses. With new drugs introduced every day and drug interactions a more serious concern than ever before, nursing students need quick,

convenient access to up-to-date drug information in order to pass their licensure exams. In a market dominated by lengthy tomes priced nearly double, the 'Pharmacology Made Easy' study guides are the most efficient and economical review choices available. In each book, 295 carefully prepared written test questions cover drug actions, adverse reactions and side effects, contraindications and precautions, interactions, nursing considerations, and therapeutic benefits for more than 600 medications. Complete rationales for correct and incorrect answers are provided. Each book includes a 100-item interactive practice test on disk. Book and Disk.
