This is a revision guide for students giving bullet points of basic information on physical pharmacy followed by questions and answers. Fast Track is a new series of indispensable revision guides created especially for undergraduate pharmacy students. The content of each title focuses on what pharmacy students really need to know in order to pass exams, providing concise, bulleted information, key points, tips and an all-important self-assessment section which includes MCQs, case studies, sample essay questions and worked examples. "The Fast Track" series provides the ultimate lecture notes and is a must-have for all pharmacy undergraduate students wanting to revise and test themselves for forthcoming exams. Based on the successful textbook, "Physicochemical Principles of Pharmacy", this title is a concise guide providing the physicochemical background to the design and use of pharmaceutical dosage forms..
