“... every critical examination of HF therapy in the United States has documented that we are not using all the weapons in our arsenal. We know what works, yet we are not systematically applying these proven therapies.”

-- from the Introduction If you are interested in a better way to treat heart failure, this book is for you. Dr. Michael McIvor – who has taught thousands of healthcare professionals how to effectively care for patients with chronic HF through CME symposia – takes a logical, step-by-step approach to setting up and operating the kind of program that reduces hospital admissions and improves patient care. Establishing a Heart Failure Program: The Essential Guide answers the different questions posed by physicians, nurse practitioners, nurses, and hospital administrators, all of whom need to work as a team to achieve success. The three major sections of the book address: Taking the first steps toward building your heart failure program - developing a business plan, choosing your model of care, and making accurate financial projections Assembling the pieces of your program – managers, front line staff, and the physical facility Day-to-day operations A companion website presents forms you can download and use in your own heart failure center. Drawing from experience, Dr. McIvor helps you avoid common problems by identifying potential problems and sharing advice that has proven effective to your colleagues. He gives you the essential tools – unavailable elsewhere – to set up and maintain a heart failure program that achieves superior clinical outcomes.
