The Seventh Edition of *Diagnosis and Evaluation in Speech Pathology* continues to be the leading text in its field, providing a practical process approach to the diagnosis and evaluation of speech and language disorders. This engaging, yet comprehensive resource provides a strong foundation in diagnosis and evaluation for students in

training and clinicians alike. It develops a rationale for each type of assessment, including both standardized and non-standardized approaches. This text is ideal for practitioners and clinicians who are struggling to stay in tune with the rapidly changing field of Speech-Language Pathology.
