著者:Ciesla, Betty

出版者:F a Davis Co

出版时间:2007-1

装帧:HRD

isbn:9780803615267

This innovative new text provides students with an understanding of hematology in the context of practical laboratory practice and principles. Author Betty Ciesla, an educator of both MLT and MT students, has infused this text with her visually descriptive

language to guide the reader to mastery of this sometimes daunting subject matter. Foundational information is clearly presented, allowing students to expand their knowledge base once they understand these concepts. "Hematology in Practice" was reviewed and approved by students and educators, and will fully engage your students while guiding them to learn, master, and then apply the critical concepts that make hematology an exciting visual science.
