isbn:9783540286554

This book is based on the latest comprehensive data about molecular mechanism of

acute pancreatitis, chronic pancreatitis and pancreatic cancer. The diagnostic techniques including histology, radiology, sonography etc. are based on the sensitivity and specificity of the respective methods. Special focus is given to the indication and contraindication to surgical techniques. The book contains specific treatment modality and results for the first time after long-term outcome evaluation. There is detailed description of diagnosis and treatment, and the book is abundantly illustrated with approximately 300 color illustrations.
