Lecture Notes: Human Physiology provides concise coverage of general physiology for medical students as well as students of biological sciences, sport science, pharmacology and nursing. This fifth edition of the ever popular Lecture Notes: Human Physiology has been thoroughly revised and updated by a new international team of authors. The simple structure and systems-based approach remain, with a new clean layout for ease of reading and colour now incorporated to aid understanding. Lecture Notes: Human Physiology:

Provides more focus on pathophysiology for clinical relevance

Is the perfect introduction for medical and allied health care students

Now includes physiology of pain and increased coverage of heart and the vascular system

Includes a completely revised chapter on the nervous system.
