Expansively illustrated, this volume in the "Foundations in Diagnostic Pathology" series encompasses aspiration cytopathology of all major body sites. Experts in the field provide you with a clear, concise, and practical diagnostic approach to the challenges you face every day. Color photomicrographs provide a visual image of individual lesions, to make learning quick and easy. The consistent, convenient format provides quick, at-a-glance reference, making it an excellent resource not only for the pathologists-in-training but for those in practice as well.

Uses highly templated chapters to make key information easy to find.

Incorporates carefully selected high-quality, full-color images.

Covers aspiration cytopathology of all major body sites.

Includes contributions from the world's preeminent cytopathologists.

The Foundations in Diagnostic Pathology Series answers the call for fresh, affordable, and easy-to-use guidance. Each region-specific volume provides all of the most essential information on the pathologic entities encountered in practice. Series Editor: John R. Goldblum, MD, FACP, FASCP, FACG
