'This is an excellent review of emergency medicine in easy-to-read case-based questions that provide readers with sufficient information to understand the key concepts of diagnosis and management in the emergency setting' - "Doody's Review Service". 'I found all of the questions to be in true USMLE style, the content to be entirely accurate and up-to-date, and the degree of complexity to be appropriate for third and fourth year medical students. It is the best review text that I've ever reviewed' - Michael Curley, Medical Student, University of Wisconsin School of Medicine and Public Health. This is the best question-and-answer review for emergency medicine questions on the USMLE Step 2 and shelf exams. Reader will find 500 board-format questions, complete with explanations of both correct and incorrect answers. All questions have been reviewed by medical students to ensure they accurately reflect the exam experience. This title covers features including 500 USMLE-type questions, answers, and explanations; and explanations for right and wrong answers. It targets what you really need to know. It is student tested and reviewed.
