Many movies are synonymous with the locations where they were filmed. "On Location" is a lighthearted, round-the-world tour of famous movies so you, too, can go "on location." Exact addresses, review-style essays and city maps take you there, whether on a "Harry Potter tour of London", a "Breakfast at Tiffany's trip to New York", or a jaunt to the Rome nightclub where Matt Damon and Jude Law partied in "The Talented Mr. Ripley". This richly illustrated volume with a foreword by director Wim Wenders presents 18 cities and their world-famous films: from Los Angeles to Paris, Beijing, Sydney, Prague, Berlin and much more. This is a peek behind the scenes of numerous famous locations.
