For over 30 years, Stan Winston and his team of artists and technicians have been creating characters, creatures and monsters for the silver screen, from "The Terminator" and the extraterrestrial monstrosities of "Aliens" and "Predator" to the amazing dinosaurs of "Jurassic Park" and the fanciful character of Edward Scissorhands. Now, at last, he's opening up the Stan Winston Studios to collaborate on the first-ever book to reveal all the behind-the-scenes secrets of his groundbreaking and hugely influential artistry and effects work. Featuring an extensive array of sketches, production art, and photographs straight from the studio archives, this is the book his fans have been waiting for!
