In "Fever", music critic Tim Riley argues that while political and athletic role models have let us down, rock and roll has provided enduring role models for men and women. From Elvis Presley to Tina Turner to Bruce Springsteen to Kurt Cobain and Courtney Love, Riley makes a persuasive case that rock and roll, far from the corrosive force that conservative critics make it out to be, has instead been a positive influence in people's lives, laying out gender-defying role models far more enduringly than movies, TV, or "real-life".
