This widely acclaimed book, first published in 1974, was a classic from its first day in print. Written in a direct, inviting way by Harry Braverman, whose years as an industrial worker gave him rich personal insight into work, *Labor and Monopoly Capital* overturned the reigning ideologies of academic sociology.

This new edition features an introduction by John Bellamy Foster that sets the work in historical and theoretical context, as well as two rare articles by Braverman, "The Degradation of Work in the Twentieth Century" (1975) and "Two Comments" (1976), that add much to our understanding of the book.

作者介绍:

Harry Braverman was director of Monthly Review Press at the time of his death in 1976. John Bellamy Foster is associate professor of sociology at the University of Oregon, author of *The Vulnerable Planet*, and co-editor of *In Defense of History: Marxism and Postmodern Agenda*.

布雷弗曼在本书中用大量材料证明，资本和劳动在生产过程中的斗争——随着机械化、自动化水平的提高，工人的劳动技能在退化，工人丧失对劳动过程的控制，工人沦为生产过程中的一个零件，越来越多的从事简单乏味、精确到秒的机械动作。资本及其代理人通过机器控制工人，死劳动...
