EARTH ASCENDING is a workbook for human and planetary survival. This collection of fifty holonomic maps and comprehensive text is based on a resonant field paradigm that transcends the Newtonian materialistic model. Each individual map is a work of art unto itself encapsulating a world of insight and consciousness and bridging the gap to an integrated galactic worldview. In previous years it had been said that it would be curtains for humanity if a design revolution were not completed soon. It is now much later and as a convincing response to this challenge EARTH ASCENDING postulates a planetary design which envisions the evolving field of Earth in relation to the galactic whole. EARTH ASCENDING demands a stretch of consciousness. Our fall from spiritual realisation and our degradation of the environment are the result of a blind acceptance of one-dimensionality and a paralysed complacent acceptance of impending doom. Only a rebirth into the numinous world of multidimensional

interface will give us the vision to create a new future. EARTH ASCENDING offers this vision.
