This anthology presents a range of interdisciplinary explorations into the urban environment, through film, photography, digital imagery, maps and signage. Contributors to this work examine our fascination with the city through the history of art and architecture, urban studies, environmental studies, cultural geography and screen studies. Bringing together a wide spectrum of urban contexts, "Visualizing the City"'s diverse essays explore visual representations of urbanism and modernity reflected through the prism of global cultures using an engaging variety of methods and texts.
