Covering all aspects of classical art from the Etruscans to the fall of the Roman Empire, The Grove Encyclopedia of Classical Art & Architecture is a comprehensive reference source on this important field of study. Drawing on the expansive scholarship of The Dictionary of Art (1996, 34 vols) and Grove Art Online , and adding dozens of new entries, the Encyclopedia includes all subject areas in the classical arts, including philosophers, rulers, writers and artists, architecture, ceramics, sculpture, and more.
