On the "tail" of "Dachshunds: Lightweights, Littermates" and "Labs and Lightweights: Littermates", comes another charming book of dog photography by Sharon Montrose. Approximately sixty mixed breed dogs, such as Sydney, the terrior-chihuahua mix and Bob, the heeler-corgi mix, will be featured in the photographs along with their names and parentage. Each lovable mongrel will be featured in its own spread, minimally and beatifully designed by Sharon. With a lovely white background, each pup really pops from the page. "Mutts" will have a larger trim size than past "Montrose" titles and will be the prefect gift for any dog lover.
