Chasing money is all Chloe has ever known. Just when she thinks she's got it all, times get tight, and her body is put to work in the bedroom. Between sexin' married men for hire and searching for the man who would get her out the game; her life is shattered when her cousin Oshyn, pulls in a drug dealer with deep pockets. Oshyn knows her conniving cousin would do anything to walk in her shoes, so she flaunts glamorous gifts and icey diamonds, given to her by new love, Brooklyn Jones. Chloe gets senseless and resorts to desperate measures when she can't steal Brooklyn from Oshyn. When her wild sexual escapades don't work, she uses the ultimate betrayal as her weapon. But her plan is destroyed when a tragic moment happens that shocks everyone. Will Chloe look past her evil ways and change for the better, or will their fate be a replica of their dark family secret? There's a reason why their mothers are locked down and six feet under.
