In *Slave Girls of the Western World* we follow the adventures of Marcus, a lusty officer in the legions of Rome, as he is sent to guard the Northern frontier from the savage blond barbarians - proud Nordic warriors whose women were renowned throughout the empire for their startling beauty. War yields captives — and captives in those less civilized times were forced into slavery, made to obey and to serve their Roman masters. This is the story of the wild debauchery and the sensual decadence that flourished from Rome itself to the farthest reaches of the expansive empire.
