Do you feel yourself slipping into bridezilla mode even though you swore you'd never be one of those brides? If your in-laws are driving you crazy, your day planner is overflowing with vendor cards, and your groom just can't seem to be bothered, now is the time to cozy up and treat yourself to these ceremonial tales that will make you laugh out loud--and restore your inner bridal calm. Rest assured every bride encounters some mishap; this little book is full of testimonials from those who have triumphed over wedding mania, with their hearts--and (usually) their pocketbooks--firmly in place.
