UNDERCOVER—AND TOTALLY EXPOSED . . .

Tall, lithe Selena McCaffrey turns heads on the streets—and hides an assassin's knife beneath her clothes. In another life, Selena would have chosen a peaceful career as a painter. But as a child, fate plunged her into a fight for survival—and a trusted father-figure forced her into a life of crime.

Now the feds want Selena to go undercover. Her assignment: break up the criminal empire once run by her protector and mentor. But playing a double game threatens the first good thing she's ever had with a man—an honest Tulsa cop—and draws Selena into a high-stakes sting filled with deception and shocking violence.

Surrounded by danger—and coming closer to uncovering a chilling truth about herself and her past—Selena is about to find out just how much deeper she’ll have to go . . . to get out alive.
