评论

I could have gone without reading it, personally. Contemplation from another age. Nice light read. Saying with many words where few would suffice (inaccurate observations where only the spirit of the speech has value). Thoreau should appreciate.

似乎越到后半部分越精彩。难读确实是难读，不过写的好的段落简直绝了所以四星必须要给！

 还不想细究缘由，但迪拉德很可能是继梭罗和利奥波德之后我最爱的一位美国自然作家。
 。

 mind-blowing
