出版者:Adventure Pubns

出版时间:2006-8

装帧:Pap

isbn:9780967379388

This latest addition to the popular North Woods Naturalist Series contains detailed information on all 46 species of northern frogs, snakes, skinks, salamanders and turtles. With range maps for each species, as well as photos of rarely observed behaviors, this seasonal guide will help you know what to look for and when.
