isbn:9781593760434

Agrarian philosophy, a compelling worldview with advocates around the globe, encourages us to develop practices and policies that promote the sustainable health of the land, community, and culture. In this remarkable anthology are 15 essays from Wendell Berry, Vandana Shiva, Wes Jackson, Gene Logsdon, Brian Donahue, Eric Freyfogle, David Orr, and others. The Essential Agrarian Reader calls us to celebrate the gifts of the earth, through honest work and respect for the land.
