The Gangsta Rap Coloring Book is just as it sounds: a series of images in thick black lines of the most popular gangsta rappers from hip-hop. The juxtaposition of hard-core thugs portrayed through a children's medium made this book an underground hit in

Aye Jay Moreno's first, self-published edition. Now expanded from 20 to 48 pages to include even more of the music's superstars, this collection is a witty hall of fame of gangsta rap.
