From the black-and-white stripes of a Zebra Swallowtail to the pale jade of a Malachite, coloring your own field guide is the most enjoyable way to learn about butterflies. Each drawing is accompanied by a brief description that educates as it entertains. Place the new color stickers next to the drawings for a visual reference while coloring. Coloring the drawings helps reinforce the color, image, and shape of each butterfly, improving your memory and perception while offering a pleasant and easy way to learn. Fun for adults as well as children, beginning and experienced naturalists alike.
