make a special day even more memorable. Readers will learn how to create elegant veils, luxurious wraps, decorated handbags, fashionable hair accessories, stylish shoes and more that will let their personal style shine through. In addition to personal accessories for the bride, there are projects to make accessories for the entire wedding party including hair accessories, ring pillows, a memory quilt, a fabric covered memory box and gifts for the attendants. These are easy projects for brides, mothers, grandmothers, attendants and friends to make using embellishing techniques that often involve nothing more complicated than a hot glue gun. Other projects involve basic sewing techniques that any beginner can master. Each project is showcased with step-by-step colour photos and comprehensive instructions.
