著者:Aristophanes

出版者:Harvard University Press

出版时间:September 1998

装帧:Hardcover

isbn:9780674995673

The general introduction that begins Volume I reviews Aristophanes' career and brings current scholarly insights to bear on the intriguing question of the comic poet as a political force. In *Acharnians* a small landowner, tired of the Peloponnesian War, magically arranges a personal peace treaty and, borrowing a disguise from Euripides, demonstrates the injustice of the war in a contest with the bellicose *Acharnians*. Also in this volume is *Knights*, perhaps the most biting satire of a political figure (Cleon) ever written.

作者介绍:

Aristophanes of Athens (ca. 446–386 BCE), one of the world's greatest comic dramatists, has been admired since antiquity for his iridescent wit and beguiling fantasy, exuberant language, and brilliant satire of the social, intellectual, and political life of Athens at its height. He wrote at least forty plays, of which eleven have survived complete.
