著者:James Van Praagh

出版者:Pocket Books

出版时间:2002-10

装帧:Pap

isbn:9780743227261

Celebrity medium James Van Praagh has offered enormous comfort to the bereaved by helping them converse with their deceased loved ones. Rather than hoarding the secrets to his phenomenal success as a clairvoyant, Van Praagh now offers *Heaven and Earth*--a step-by-step course in developing psychic ability. He shows readers how to heighten each of their senses, not just the sixth one. In another chapter he describes the methods that spirits use to contact us, such as instilling thoughts that seem like "inspirations" (which mean "in spirit," according to Van Praagh). He also teaches readers how to protect themselves from negative entities, such as "psychic vampires." True to his bestselling formula in *Talking to Heaven* and *Reaching to Heaven*, Van

Praagh uses real-life anecdotes to keep the narrative grounded and compelling. And there's an unexpected bonus: buried within the chapter "Psychic Protection," Van Praagh shares his clairvoyant insight into the assassination of John F. Kennedy. --Gail Hudson --This text refers to an out of print or unavailable edition of this title.
